## 7. Charge the Device

The HG200/ HG200 plus takes 7-8 hours to be fully charged. To ensure optimal charging, please clean the connector and the charging pin often.

## Battery / Charging Information:

3.7V / 1600mAh, 5V / 500mA

1. Attach the magnetic charger on the charging contacts located on the back of the device. Be sure the pins are aligned. Keep the device on a stable surface while charging.
2. Insert the USB end of the charging cord into a computer USB port or CE/FCC certified **5V 1A** output USB charger (exceeding 5V will void the warranty).
3. **Clean the charging contact port often to ensure the Charging efficiency;** if you find that the power is still low after charge or the use time is short, please wipe the charge connector of the charging cable and watch with alcohol cotton.

**Important Note:** If the device is charged by computer USB port, please click “Safely Remove Hardware” on the computer before removing the device.

### **⚠ CAUTION**

**AVOID** touching the magnetic end of the charging cable with metallic objects to prevent short circuits and damage to the cable.

For safety reasons, after the device is fully charged, disconnect the charging cable from USB power source.

## 8. Terms of Warranty

The products are warranted to be free from defects in materials or workmanship for 12 Months from the date of purchase. Within the period, the manufacture will, at its sole option, repair or replace any components that fail in normal use. Such repairs or replacement will be made at no charge to the customer for parts or labor. The customer shall be responsible for any transportation cost.

The limited warranty does not apply to

1. Cosmetic damage, such as scratches, nicks and dents.
2. Consumable parts, such as batteries, watch band/buckle, clip, iron, charging cable....etc. unless product damage has occurred due to the defect in materials or workmanship.
3. Damage to a product that has been fallen accidentally, modified or altered without written permission of the manufacturer.
4. Damage to a product that has been connected to a non-CE/FCC certified 5V 1A power supply.
5. Damage caused by failure to observe the safety instruction.

The manufacture reserves the right to refuse warranty claims against products or services that are obtained or used in contravention of the laws of any country. The device is intended to be used only as a sport or leisure aid and must not be used for any purpose requiring precise measurement of direction, distance, and location. The manufacture makes no warranty to the accuracy or completeness of the course data.

To obtain warranty service, an original or copy of the sales receipt from the retailer is required. Securely pack the device and a copy of the original sales receipt. Send the device, freight charges prepaid.

## 9. Safety Instructions

Failure to heed the following instructions could result in an accident or medical event resulting in death or serious injury.

1. There is a built-in Li-polymer battery inside. Do not expose the device to fire, explosion, or other hazard.
2. Do not leave the device exposed to a heat source or in a high-temperature location, such as in the sun or in an unattended vehicle. To prevent the possibility of damage, remove the device from the vehicle or store it out of direct sunlight.
3. Do not operate the device outside of the temperature lower than 0 or over 45 degrees Celsius (from 32° to 113°F).

4. AVOID touching the magnetic end of the charging cable with metallic objects to prevent short circuits and damage to the cable.

For safety reasons, after the device is fully charged, disconnect the charging cable from USB power source.

5. To ensure water does NOT enter the device and cause damage, please follow the instructions below :
  - Do not exposure to extreme atmospheres (i.e. hot water, saunas or steam rooms).
  - Avoid exposure to water moving with force (i.e. water running from a faucet, ocean waves or waterfalls).
  - Avoid long exposure to salt water.
  - Do not disassemble, modify, remanufacture, drop, or puncture with forces.
  - Do not remove or attempt to remove the non-user replaceable battery.
6. Do not use while driving or be in any situations or environments require concentration.
7. The device trackers rely on sensors that track your movement and other metrics. The data provided by the device is intended to be a close estimation of your activity, but may not be completely accurate.
8. Contact your local waste disposal department to dispose the device in accordance with applicable local laws and regulations.
